

DREAM TENDING & TENDING PSYCHE

*Tending Psyche in Dreams and in Waking Life:
Awaken the Power of the Living Image; a World Alive with Soul*

A Six-month series in Phoenix meeting once a month starting on Sunday, September 7

**** 10:30 to 1:00 * cost \$360 ****

Join our circle and deepen your connection with Psyche. JoHanna will “tend” your symbols and dreams. We will listen deeply to the voices of the images as they come alive to offer insights and transformation. Hear the wisdom of ancestral callings, the instinctual power of animal visitations, and the musings of the soul. All are attended to with sensitivity and care as the intelligence of the symbol or dream is listened to from the inside out.

Symbols carry an inner knowing, an innate sensibility, and an element of potency that affords each of us the capacity to open to the depths of our own experience. When we tend symbols & dreams, images come ‘awake,’ imagination is animated, and we participate in life more fully rooted in the ground of our being. From this ground we experience the support to grow our creative wings and expand our vision to encompass wholeness.

JoHanna McNamee, MA earned a Master’s degree in Depth Psychology from Sonoma State University in California and completed advanced training in *DreamTending* with Dr. Steven Aizenstat, at Pacifica Graduate Institute in Santa Barbara, California. JoHanna also has training in Gestalt Therapy, Humanistic Psychology, Psychodrama and Addictions Counseling. In addition, JoHanna has completed a nine year Jungian Analysis. She sees clients, facilitates groups and offers *Creativity & Depth Workshops* in Sedona, Prescott and Phoenix. JoHanna also gives regular presentations to the graduate students at Prescott College.
